

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Serial No : 10/534,230 Confirmation No.: 3376
Applicant : ANTHONY J. WATLING
Filed : MAY 6, 2005

Group Art Unit: 1762
Examiner: PARKER, Frederick

Docket No.: 415.0011
Customer No.: 25534

For : COLOURING MASONRY SURFACES

DECLARATION UNDER 37 C.F.R. 1.132

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

I, Mr. Anthony Watling, hereby declare and state that:

1. I am the inventor of the above patent application.
2. According to the claimed methods, a fired slurry-coated masonry surface provides the following advantages for application of a tinting composition:
 - a) It allows for the application of a tinting compositions regardless of the regional clay source of the masonry surface;
 - b) It provides a surface that absorbs tinting compositions evenly with a wide color shift; and
 - c) It allows for advantageous uptake and drying times for applied tinting compositions.
3. A skilled artisan would have been able to apply a variety of organic and inorganic tinting compositions to the fired, slurry-coated masonry surfaces (clay brick) in order to achieve a desired tint or color with little effort.
4. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and

U.S. Serial No. 10/534,230
DECLARATION UNDER 37 C.F.R. 1.132
Docket No. 415.0011

further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Mr. Anthony Watling

6/5/09.

Date

6th May 2009.
